

YEAR 4&5 PLANNING FOR THURSDAY 19TH MARCH 2020

Dear Year 4&5,

Here is the list of what I would like you to do today – there should not be anything here that you find too tricky but if you do need some support then let me know. All of the relevant documents and instructions can be found in our Google Classroom so if you have not set this up already, please do this as per the instructions on the previous email. If you need us to re-send the instructions, please send an email to info@calpeschool.com

As well as the Literacy and Numeracy tasks that I have set, I have seen a lot of activity on Active Learn – well done! I am keeping a checklist of who has completed their work and this will earn you House Points when we are back in school.

HOMEWORK REMINDER:

Of course it seems a little strange to be calling your homework 'Homework' when all of the work is homework right now! However, I would like you to complete both sides of the first green maths paper (**Set 8**) and the activity in your **Vocabulary Booklet (dated 13.03.20)**. When these are done, you can send a photo to me. If you have not collected these packs from the school office, you are welcome to drop by and do so. Otherwise, I will make the Numeracy task available in Google Classroom. We can do "catch-up" work in the Vocabulary Booklet if you do not have it at home. Please complete this by 4pm tomorrow (Friday 20th).

NUMERACY Year 5 group

Aim: To compare fractions of different sizes and use the < and > symbols

You will need to look at the fraction wall which is in your pack. If you do not have this, there is also one attached with the maths activity. All of the instructions are attached to your assignment in Google Classroom.

NUMERACY Year 4

Aim: To identify angles as Acute, Right or Obtuse

All of the instructions are attached to your assignment in Google Classroom.

LITERACY: DIARY ENTRY

Aim: To compose a diary entry from the point of view of Samar (Oranges in No Man's Land)

You will find the instructions for this task in Google Classroom.

ONLINE GAME:

<https://www.activelearnprimary.co.uk/login?c=0&l=0>

EUROPE – MAP QUIZ – for Thursday 19th and Friday 20th

How many countries can you identify on a map of Europe? Play this game to test your skills and improve your general knowledge of Europe!

If you scroll down below the interactive map, there are many other options for testing and improving your Geography map and atlas skills. Have fun!

Hopefully the instructions are clear, but I will try to answer any questions or queries through the info@calpeschool.com email during the normal school day should you need any clarification. Please mark and check your children's work. If you can write 'Year 4&5' in the subject, this will help it to reach me.

Many thanks, Miss Carrie
