

# YEAR 1 PLANNING FOR WEDNESDAY 22<sup>ND</sup> APRIL 2020

Dear Year 1,

I hope that you enjoyed the live meetings so far and that most of you have ironed out any connection issues. All assignments have documents attached to show you how to send me your work.

In your **stream** today there is a **video** explaining all the tasks and also reading out the work to prepare your child for the Science lesson. Please watch this video to understand the independent tasks and to follow my instructions. Thank you.

Today (Wednesday) is a day for us all to continue to get used to the new "live call" Google Meet platform. We will also have a whole class meet today and I hope you come prepared with the material in the Classwork tab of Google Classroom. When you are not in a "live call" with me or in Spanish with Mr Manu, you can see what activities you need to be doing in the STREAM and in the CLASSWORK area of Google Classroom.

**You can email now me directly on [year1@calpeschoolonline.com](mailto:year1@calpeschoolonline.com). I will try to answer your questions as quickly as I can, when I am not in a 'live session'.**

Here is the list of what I would like you to do today – there should not be anything here that you find too tricky but if you do need some support then let me know.

## LIVE MATHS

### Aim: to recognise numbers

**Please come prepared to the lesson with your numbers ready.** There are different numbers to choose today. I will meet in groups to play a fun game of Bingo. This will help us get used to a bigger group and hopefully you enjoy the lesson. **Full instructions on Google Classroom.**

## LIVE LITERACY

### Aim: to create words

Come to the lesson with a whiteboard and pens or your blue book and a pencil. We are going to have a fun game called Boggle. I will explain all during the live lesson.

## LIVE SCIENCE

### Aim: to discuss animals

Come to the lesson with material printed or read through it before the lesson. We are going to talk about different animals. Please prepare before the lesson and watch my video to understand the task and we will be practising our turn taking skills, too. **You will find all the instructions for this task in Google Classroom.**

## **INDEPENDENT MATHS:**

### **Aim: To create a number spinner**

Follow the instructions to make a number spinner that we can use in future Maths lessons. **You will find all the instructions for this task in Google Classroom.**

## **INDEPENDENT LITERACY**

### **Aim: To read a book on Bug Club**

On Active Learn, you now all have been allocated a Book Band with books that should be at your level. By clicking the little bug icon on each page, you will be asked questions to see if you understand the story. Make sure to answer the comprehension questions in order to see if the books are right for you.

Example:

Click here for the questions.

## **INDEPENDENT TOPIC - Art**

### **Aim: to paint with water**

As it's sunny outside, get a clean paintbrush and some water. Draw some images on the wall or on the floor outside. As it's so sunny, the sun will dry out your artwork so you must be quick!

**Share your work with me on Google Classroom.**

**P.E. LET'S GET MOVING!** Just because it's not your normal PE day, it doesn't mean you shouldn't get moving! Let's try and do a workout a day to keep us fit and healthy.

**I want you to come up with your own exercise and train your family.**

I hope you are all enjoying the live lessons together on Google Meet! I am so proud of all of you and your hard work so far this week.

Well done Year 1!

Miss Gwenno
